CARBON TAX PLANS OUTLINED BY PM, TREASURER

PRIME MINISTER JULIA DULLARD AND HER TREASURER, WAYNE SCHLONG RELEASE DETAILS ON THE NEW TAX

Details of the new carbon tax have been released by Julia Dullard and Wayne Schlong in a special press interview in Canberra today.

With at least 500 companies being targeted to pay the tax, there have been some additional sources added to the money flow into the government coffers.

A special committee set up by the Dullard government, at a cost of \$9,870.43 to taxpayers, has been studying the habits of internet users and found a veritable fortune ready for

the taking in emails that flow back and forth each day between servers.

The committee found that a majority of emails sent out each day contained 'carbon copies' (cc) and 'blind carbon copies' (bcc).

"This clearly shows that many people are using carbon willy-nilly and this must be reigned in" Ms. Dullard stated.

Newsagents and major stationery stores will also be targeted for the tax.

Treasurer Wayne Schlong has calculated that with revenue collected through the tax on docket books and accounting books will raise an extra 3 trillion dollars to go to our IMF friends overseas.
