U. S. PRESIDENT, BARACK OH-BUMMER TO START A NEW, MUCH WELCOMED WAR IN THE UKRAINE

FEDERAL RESERVE FINDS \$50 TRILLION THAT IT FORGOT IT HAD PRINTED

Washington April 1st, 2014.

In a not-so-surprising move today, U.S. president Barack Oh-bummer has told the Russian president, Vladimir Putin, that the U. S. is not willing to stand back and let a whopping \$50 trillion dollars just go to waste and gather dust when it could be well spent on something useful, like another war with someone, anyone in fact.

Although Oh-bummer has stated that he'd never ever heard of a country called U-Crane, he did say that he believed it was associated with U-Haul and he made it quite clear that the United States would not stand idly by and allow its citizens to decide their own fate.

"These people have no idea what freedom is like, so the US is now prepared to move in and kill as many of those citizens as necessary to show them that freedom" Mr. Oh-bummer told Rooters in a press release today.

President Oh-bummer has also made moves in dis-arming dangerous states such as Connecticut, claiming that states such as these have no place in what the US is today.

"States like Connecticut have always been involved in weapons manufacturing and it has to stop" the president stated.

"It's common knowledge that Connecticut has been involved in arms running since revolutionary times and for the sake of American citizens and their safety, we have to stop this practice immediately" he said.

President Oh-bummer said that of the weapons that are being confiscated from Connecticut, many will be donated to peaceful countries in Africa, such as The Sudan, Egypt, Kenya and Tunisia, where the people all love America.

Israel will get the bulk of the arms, as it has always shown responsibility in its

administration of fairness and justice to the Palestinians under their military boots.

Take care of those pesky varmints, 4 legs or 2. The results are always the same. Satisfying!
